

J. J. Keller's Encompass™ E-Logs Edition

Improve Hours of Service
compliance with the industry's
only stand-alone E-Logs solution

J. J. Keller's Encompass™ is the industry's most versatile online tool for improving driver and vehicle compliance and performance. With an Internet-based dashboard, it delivers a real-time view of critical fleet information.

The E-Logs Edition uses our onboard recorder, along with drivers' compatible Android™ devices or Windows® laptops, to automate E-Logs and electronic DVIRs. Plus, you get access to additional online tools to help increase your drivers' level of compliance.

Automating Hours of Service is simple with these features:

- **Electronic logs** let drivers record duty status on their smartphones or laptops, then store it in Encompass where HOS compliance levels can be monitored any time. (EOBR required.)
- **Manual log entry and auditing** allows duty status documents to be keyed in and instantly monitored online to assure compliance.
- **Electronic DVIRs** can be used with your drivers' compatible mobile device. (EOBR required.)
- **Manual DVIR entry** lets management watch for maintenance gaps.
- **Driver and vehicle reports** list all current drivers and vehicles in your pool.
- **Dashboard alerts** immediately identify compliance areas that require attention. Alerts can be automatically emailed to select employees.
- **Reporting** templates are customizable based on company locations, driver & unit types, and more.
- **Learning Center** includes documents and webcasts covering key regulatory areas.
- **Upgrade options** allow you to add compliance and performance features as your needs change.

\$3 per driver per month for 26+ drivers
(plus a one-time fee of \$199 for each EOBR)

\$495 per company, per year for <26 drivers
(plus a one-time fee of \$199 for each EOBR)

Manual log entry option

(No EOBR required.)

\$1.50 per driver, per month for 26-100 drivers

\$1.25 per driver, per month for 101-200 drivers

\$1 per driver, per month for 201+ drivers

\$445 per company, per year for 0-25 drivers

\$75/month minimum billing for all options.

Get Started with E-Logs in 3 Steps:

1. Equip your drivers with compatible Android™ devices or Windows® laptops (data plan required)
2. Install EOBRs on selected trucks (one-time \$199 fee per EOBR)
3. Enjoy improved fleet compliance
